LAKALUK

Collection

Lakaluk is a small creative studio specialising in handmade toys, nursery decor and interior accessories for design conscious family.

The brand was founded by Kertu, who is the main designer and creator of Lakaluk's products. Kertu's biggest inspiration was birth of her son, Hans, back in September 2017, when she discovered a whole new world - a world of toys and children's room decor. She is also inspired by the simplicity of Scandinavian design, minimalism, geometry and nature.

Lakaluk's mission is to create unique, quality and eco-friendly products for the little ones, which will also be enjoyed by the grown ups. It is about connecting children with natural materials, helping them discover their creativity and let them be in charge of it.

All our products are handmade and hand painted in Tallinn. Kertu works from home based Tallinn studio.

Kids' chair / dollhouse / shelf

This chair is not just a piece of furniture. It's much more. The plywood chair for kids can be also used as a dollhouse or as a shelf. Therefore, three distinct functions come together in the same object. Your little one will enjoy imaginative play for hours on end.

The chair can be safely stacked on top of each other, so it can be used as a double/triple shelf or multi storey dollhouse. Just order multiple chairs and stack them on top of each other.
